

# Modern VMS. No lock-ins. No starting over.

## Facing the End of Your VMS?

If you've been forced to migrate from your VMS or are exploring alternatives, you're not alone. Many integrators and end users are being pushed into complex, costly transitions — often with little flexibility or support.

Wavestore offers a better way forward.

## Why Wavestore?

- **Keep Your Existing Cameras & Hardware:** Where possible, we help you extend the life of your current investments — no need to rip and replace.
- **British-Developed & Supported:** Proudly built in the UK, Wavestore delivers responsive, in-country support. No ticket queues. No offshore delays.
- **One Unified Platform:** Four software tiers. One powerful system. VMS, analytics, integrations, health monitoring, and reporting — all in one place.
- **Open Platform with 80+ Integrations:** Compatible with your preferred cameras, recorders, analytics, and more — we're brand-agnostic by design.
- **Flexible Licensing Options:** Choose what suits you: perpetual licenses, subscriptions, or CAPEX-friendly spreads.
- **Cloud, Hybrid, or On-Prem:** Wavestore supports your architecture of choice, including secure cloud connectivity.
- **We Move Fast:** No weeks-long wait for a license key. Our partners get what they need — when they need it.
- **A Partner-First Approach:** We go beyond sales — with system design support, training, and a “grow together” partnership model.

## Built for What's Next — Without Leaving the Past Behind

Migrating from a legacy system shouldn't mean starting from scratch. With Wavestore, you get all the benefits of a modern VMS — with the option to reuse your infrastructure.
